

Corporate Capabilities

Newbrook Solutions

Mission

Our mission is to provide every customer with unparalleled solutions through the intelligent and appropriate use of information technology.

About

- Newbrook Solutions provides full software development lifecycle expertise — managing, designing, implementing, testing and deploying secure software solutions.
- Our teams specialize in iterative, agile development methodologies using Microsoft .NET and Java on a variety of hardware platforms.
- Experience with government security requirements and information sharing policies (e.g., DCID 6/3, FISMA, EO13356, etc.).
- Experience building Web-Based, Client-Server and Service Oriented Architectures (SOA).
- Systems Engineering & Technical Assistance (SETA) experience providing program management and technical oversight.
- Headquarters in Northern Virginia with staff working throughout the DC area.

Our People

- Each of our architects and senior developers have at least five years of experience designing, developing and delivering solutions for the Intelligence Community (IC) and Department of Defense (DOD).
- Staff is cleared at the Top Secret/SCI level.
- Our team members hold a variety of industry and technology certifications.
